Spring 2022 CSE 3044
Term Project Homework#2
Deadline: 25.03.2022 17:00

1.) If you didn't send it yet, or you if you have any modification in your proposal (including new group members addition): E-mail your project proposal: 1-2 paragraphs that you have already written in your 1st homework (with the names&surnames&ids of your team members, only one of the group members can send an email.)

2.) Make a meeting with your team members, search for similar systems&applications from web and select 2 or 3 of these systems.

Write 1 or 2 paragraphs for each system: Write their aims, properties by giving references.

Please write another paragraph that explains the differences/similarities of your system in compare to the ones you found in the literature&web.

3.) What do you think that which **'*Software Process Model' (Waterfall, Incremental, Spiral…etc.) is most suitable for your Project? Why, justify your answer?***

Submit a one-page report that includes the answers of 2nd and 3rd items

E-mail your reports to cse3044marmara@gmail.com with the subject "CSE3044 HW #2"

Please **do not send** your reports to me or Borahan Hoca
