    - Also there will be lecture hour for SRS and DSD

TERM PROJECT

- Grading of The Project
  - Proposal   : %2
  - Literature Survey   : %3
  - Software Requirements Specification (SRS)   : %15
  - Design Specification Document (DSD)   : %20
  - Project Demo and Implementation   : %55
    - If you do not attend the demo, you will get 0 from the project.
  - Self Assessment   : %5
    - You will grade your team members (not yourself) between 0-25. Each number can be used once.
- The grading policy is tentative.

PROPOSAL

1. Form your team (exactly 5 students for each group)
   - If you can not form a group or if you have missing team member(s), e-mail me before the deadline, I will form the groups.
   - Equal individual effort expected.
2. Find a topic which will result a product.
   - Novel content as mush as possible.
   - Complexity of project counts.
3. Make your first meeting with your team members, discuss and understand the project, do a brainstorming about what properties the project & system could have.
4. Find a suitable name for your project. Please use your creativity. (At most one centence with few words, preferably a word or two words)
5. Write only 1-2 paragraphs that summarize your project's aim & properties.

PROPOSAL

- Submit soft-copy of one-page report that includes:
  - Name of the project,
  - Topic of the project,
  - Student ids, name and surname of the team members
  - 1-2 paragraph of answer of # 5.
- E-mail your reports to cse3044marmara@gmail.com
  - Subject: «CSE3044 Homework #1»
    - Only one of the group members will send, other group members wil be in CC.
  - Please **do not send** your reports neither to me nor Borahan Hoca
  - **Deadline: 11.03.2022 17:00**
